Education

B.Sc. Information Technology
Frankfurt University
of Applied Sciences
2012 – 2019

*Comprehensive studies in Computer
Science and IT Systems.
Focus on software engineering,
databases, and infrastructure.
Extensive academic coursework
applied in professional roles.
Degree not completed.*

Interim Head of IT & IT Architect with 15+ years of experience in enter-
prise IT, cloud transformation, and security-driven integration.

Scope: Designed and governed large-scale IT architectures across Eu-
rope in regulated banking, insurance and healthcare, enabling M&A in-
tegrations, cost reductions up to 20%, and accelerated client onboarding
from months to weeks.

Signature outcomes: Trusted by C-level as a strategic advisor; owns
regulatory audit readiness (ISO 27001, BaFin ICT-risk, DORA) and leads
cross-functional architecture teams end to end.

Achievements

- **Leadership:** Owned IT roadmaps and led cross-functional architecture, vendor and delivery teams across regions; mentored engineers and advised C-level while maintaining audit-ready standards.
- **Compliance & Audit Readiness:** Brought platforms to **ISO 27001 / BaFin ICT-risk / DORA** audit readiness across banking, insurance and healthcare, owning regulatory alignment end to end.
- **Resilience & Security:** Established enterprise-grade **HA/ DR/ Backup** frame-works and secure data exchange solutions, ensuring regulatory alignment.
- **Cloud Transformation:** Directed large-scale migrations of core platforms to multi-cloud environments and **OpenShift**, delivering compliance and scalability.
- **Cost Efficiency:** Drove infrastructure & delivery optimisation, realising up to **20% cost savings**.
- **Integration Success:** Enabled smooth **M&A IT integrations** across multiple acquired entities.

Experience

IT Lead Consultant (Freelance)
Officium21 GmbH

08/2024 – 06/2026
Germany | Remote

- Acting as Head of IT, delivered **99.5% uptime** for healthcare platforms by defining and execution of a roadmap for data protection & reliability.
- Built backup & recovery for **200+ GB** of sensitive data; cut restore times from **16h** → **<2h**.
- Automated infra ops with IaC, reducing manual effort by **70%** and strengthening fault tolerance.
- Enabled faster releases (**+30%**) by aligning architectures with compliance & performance goals.
- Reduced MTTR from **6h** → **90m** via secure data exchange & enterprise-grade monitoring.

Senior Infrastructure Architect (Freelance)
HR NAVIX LTD

08/2024 – 02/2025
Cyprus | Remote

- Designed cloud infra strategy for scalable platform; delivered HA & DR with **zero downtime incidents**.
- Deployed containerized apps & observability stack, cutting incident detection & diagnosis times by **75%**.
- Implemented data protection controls meeting ISO 27001; secured **full compliance readiness in audits**.
- Coached infra & deployment teams on resilience patterns, raising release success rate to **up to 93%**.

Senior DevOps Manager (Freelance)

ING Germany AG

04/2024 – 07/2024

Germany | 90% Remote

- Delivered securitisation platform in regulated banking; aligned to **BaFin ICT-risk** standards; secure rollout across DEV → PRD.
- Took full ownership of provisioning — **350+ ServiceNow requests, 150+ entitlements & 60+ NPAs** — all on time & within budget.
- Built the **CyberArk Safe** & directed vendors/ teams on infra delivery (AD, Citrix, MS SQL), reducing audit inconsistencies by **30%**.
- Defined secure data exchange PoC (via SFTP) enabling onboarding of multiple apps into enterprise governance.
- Owned the **disaster-recovery test** on a production trading platform and enforced end-to-end testing, cutting deployment issues by **25%**.

Lead IT Strategy Consultant (Freelance)

Officium21 GmbH

11/2023 – 03/2024

Germany | Remote

- Defined architecture & roadmap for lead-gen platform; enabled **5x scalability** while staying audit-ready.
- Directed release & go-live strategy across infra, app, and business; achieved **zero post-launch incidents**.
- Advised on IT in M&A context; designed target architecture & integration roadmap for small-cap acquisition.
- Optimized infra stability, cutting unplanned downtime by **20%**.

Cloud Migration & Release Manager (Freelance)

Baloise Group formerly Basler

12/2022 – 10/2023

Germany | 95% Remote

- Led migration of mission-critical insurance platform (**Guidewire, 50k+ (end-)users**) to cloud with **zero downtime**.
- Defined target architecture & migration roadmap, improving platform performance by **15%**.
- Directed release engineering & hotfix capability, sustaining **99.9% production stability**.
- Coordinated system-wide load/ end-to-end testing; ensured operational readiness across 5+ business units.
- Reduced regulatory risk by aligning infra & releases with BaFin ICT-risk & operational-resilience standards.

Platform Migration & Release Engineer (Freelance)

Basler Group

07/2022 – 11/2022

Germany | Remote

- Migrated distributed integration platform (SIP) from JBoss → OpenShift; boosted scalability & resilience by **30%**.
- Delivered migration of **50+ Java microservices** to cloud-native architecture with continuous release capability.
- Improved observability stack (Zabbix, Prometheus, Grafana, Splunk), cutting incident resolution times by **15%**.
- Automated release processes (Jira → Bitbucket); led the **post-breach Kerberos rollout** across all environments.
- Directed budget & stakeholder alignment across migration roadmap; achieved **on-time, within budget** delivery.

Service & Provider Management

FIL Fondsbank GmbH (Fidelity Group)

07/2021 – 03/2022

Germany | Remote

- Acted as Team Lead & Product Owner for core software 'CFM', guiding a **6-person delivery team**.
- Built up two new environment stages to strengthen release stability and

achieved a 99.7+% dark processing rate.

- Served as Chief Release Manager, overseeing versioning, supplier coordination, and budget control.
- Coordinated cross-department use of CFM, enabling seamless workflows across mail, complaints, CRM, and test units.

Manager IT Backend

FIL Fondsbank GmbH (Fidelity Group)

01/2020 – 06/2021

Germany | 95% Remote

- Directed backend operations for DIAMOS-D core banking, ensuring **24/7 availability & regulatory compliance**.
- Automated backend workflows, cutting manual processing by **20%**.
- Enhanced enterprise scheduling (Control-M) & data pipelines (Talend), scaling throughput for high-volume transactions.
- Led incident/ problem management under ITIL, improving SLA adherence by **10%**.

Data Warehouse & CI/ CD Engineer

EXXETA AG | Consultant @DB Systel

01/2018 – 09/2019

Germany | 90% Onsite

- Developed & maintained Oracle-based DWH (UC4, PL/SQL), ensuring **99.99% data accuracy**.
- Built CI/ CD pipelines (Jenkins, PowerShell, Unix Shell), reducing delivery & deployment errors by **50%**.
- Data interface programming & archiving workflows, accelerating data quality assurance reporting cycles by **30%**.

Working Student IT

Johann Wolfgang Goethe University

07/2014 – 09/2017

Germany | Onsite

- Developed internal databases & websites (PHP, MySQL, HTML, JS) used by **5+ academic departments**.
- Provided IT support & training, resolving **30+ tickets/ month** and improving staff productivity.

Internships IT

DB Netz AG & DekaBank & DVAG

2009 – 2013

Germany | Onsite

- Supported IT operations & software rollout, gaining early exposure to enterprise banking & infrastructure environments.
- Assisted in database management, troubleshooting, and process documentation, laying foundation for later IT & DevOps career.

Entrepreneurial & VC Projects

Founder & Managing Director

Cryptozonas

03/2022 – 03/2024

Germany | Remote

- Delivered consulting in DevOps, automation, release engineering & cloud; supported clients with **cost savings up to 20%**.
- Executed M&A due diligence projects in technology assets.
- Built client pipelines in regulated industries, ensuring secure infra & smooth product delivery.

Founder & Managing Director [Passion Project]

BioQuelle Solingen

09/2022 – 11/2023

Germany | Hybrid 90% Remote

- Led a **15-person team** across sales, marketing & operations, strengthening market presence and client engagement.
- Built webshop & internal systems (HTML5, PHP, MySQL); oversaw liquidity planning, vendor relations & budgeting.
